PROFESSIONAL SUMMARY

Computer Science undergraduate specialising in Health Informatics with hands-on experience developing Python-based data science projects involving predictive analytics, scoring algorithms, data visualisation, and forecasting. Interested in Data Science, Data Analytics, and healthcare-focused technology.

PROJECTS

Road Lane Requirement Prediction & Forecasting

- Developed a Python-based predictive model to forecast future road lane requirements using population growth, population density, Average Vehicle Run Rate (AVRR), and Peak Hour Factor (PHF).
- Applied growth-based forecasting to estimate future traffic demand and calculated required lane capacity for different future years.
- Visualised projected lane requirements using Matplotlib to support data-driven transportation and infrastructure planning.

Mood Medic – Emotional Wellness & Productivity Assessment

- Developed a Python-based self-assessment tool that analyses daily mood and productivity using user-reported responses and intensity levels.
- Implemented a weighted scoring algorithm to calculate Emotional Stability and Efficiency scores on a 0–100 scale.
- Generated rule-based recommendations and visualised multi-day performance trends using Matplotlib.

TECHNICAL SKILLS

- Programming: Python
- Data Science: Predictive Analytics, Data Analysis, Forecasting, Scoring Algorithms
- Data Visualisation: Matplotlib
- Productivity & Documentation: Microsoft Excel, Microsoft PowerPoint, Microsoft Word, Google Sheets, Google Docs

EDUCATION

- **B.Tech. – Computer Science and Engineering (Health Informatics)**
VIT Bhopal University | Bhopal, Madhya Pradesh | 2022 – 2026 (October)
- **Higher Secondary Certificate (HSC)**
P & B School | Rajkot, Gujarat | 2022
- **Secondary School Certificate (SSC)**
Saint Mary's School | Rajkot, Gujarat | 2019

LEADERSHIP & ACHIEVEMENTS

- Head of Sales, PR & Outreach, Team Garvit, VIT Bhopal – Secured AIR 2 in the Sales Presentation Competition; managed sponsor and external-organisation communication.
- General Manager, Team Garvit, VIT Bhopal – Coordinated departmental operations, delegated tasks, tracked progress, and supported team execution.
- Co-Coordinator, Gujarati Club, VIT Bhopal – Coordinated cultural events, logistics, scheduling, and stakeholder communication.
